MassBaP

How Can I Join MassBaP?

“MA BUILDING A PRESENCE FOR SCIENCE”

Through e-networking, MassBaP teachers of science become aware of professional development opportunities. These opportunities are intended to help a teacher expand and develop their expertise in teaching science for learning. MassBaP Key Leaders and Points of Contact receive two weekly science newsletters electronically:

Professional Development Opportunities— *Highlights current national, state, and local professional development offerings plus MA Job Openings, and science education news*

K-12 Resources—*Information about national, state, and local student programs and competitions, STEM websites for teachers and students, classroom grants, and classroom materials*

To join *Science Matters*~MassBaP, simply go to the NSTA BaP Website

at www.nsta.org/sciencematters and click on “Teachers” or email
