

School Building Systems Tour Journal

Recording Your Ideas

1. What is a system?

2. Describe a system you are familiar with.

3. Can you think of any systems in a school building which function to support life? If so, name them.

4. Can you think of any systems in a school building which function to support learning? If so, name them.

5. Now think about what human beings would need in order to live in space. Make a list of the needs you can think of.
