

Space Station Design Graphic Organizer

Compare the systems in your school building to those on a space station. Use the Venn diagram below for comparison.

On the left side of the Venn diagram, identify systems that are unique to the function of a school building. On the right side, identify systems that are unique to the function of a space station. In the area in the center, identify the systems that are shared by both.

Space Station Design Graphic Organizer

5. What types of life support systems are necessary to support the health and safety of a crew living on a space station?
