

# Space Station Systems Design Journal

## Recording Your Ideas

**1. What is a system?**

---

---

**2. Describe a system you are familiar with. What are its parts? How does it function?**

---

---

---

**3. What systems make up a space station?**

---

---

---

**4. Think about what human beings need in order to survive in space. Make a list of the needs you can think of.**

---

---
